

“When all are nourished, we live with dignity” – (Colombia)

On a hillside in Colombia, Hernando and his family grow organic, Fair-Trade certified coffee. Too often coffee farmers must sell their coffee beans at or below production costs. Since Hernando works with a cooperative that is part of the Lutheran World Relief Coffee Project, he is paid a fair price for his coffee crop.

For Hernando, “food security is food for people, food for animals, and food for the earth.” He uses every inch of their acre of land—nothing is wasted and everything supports something else. Vegetation waste provides compost and animal manure is used to create bio-gas, which becomes fertilizer and gas for the family stove. With these needs met, there is more money for the children’s education and for healthcare.

Hernando is proud of his farm and home. “I started with nothing, except a promise to do what is best for my family and a willingness to work hard. Look at my beautiful family. When all are well nourished, we live with dignity.”

Your gifts to the ELCA World Hunger Appeal, through partner Lutheran World Relief, help coffee farmers like Hernando learn sustainable farming practices and join with others in Fair Trade cooperatives. Purchase LWR Coffee Project products at www.lwr.org/coffee/index.asp
