

## Little chicks bring big hope

(Mexico)

Hurricane Stan struck Mexico and Central America in October 2005, killing more than 1000 people and leaving 100,000 homeless. In addition to the ELCA International Disaster Response aid sent by our church, gifts to the ELCA World Hunger Appeal helped our long-time partner in Mexico, Amextra (Mexican Association for Rural and Urban Transformation), respond to the economic struggles the hurricane left in its wake.

The hurricane's heavy rains damaged crops and washed out roads in the remote mountain village of Nuevo Jerusalén (New Jerusalem), making life very difficult for the *campesino* (small-scale farmer) families. Amextra provided 46 families in Nuevo Jerusalén with flocks of baby chicks.

For Juana and Miguel, who have four teenage boys, those fluffy little chicks made a huge difference. In just a few months the chickens were laying eggs that helped satisfy the appetites of their growing boys, and also hatched more chickens! Juana and Miguel's chicken business will provide stable nutrition and a sustainable income source.

*Thanks to your gifts to ELCA World Hunger Appeal, campesino families in Mexico are producing more food, improving nutrition for their children, and building a more secure future. ¡Muchas gracias!*
